WEB DESCRIPTION

Hard booklet case with a magnetic front cover. It shields and protects the iPhone 6 thanks to the front and back rigid structure. The Filo case has a simple design that leaves completely free the device screen. Even the edges remain free: the iPhone fastens to the case trough a few rigid plastic points of attachment. With just one gesture the case turns into a handy tilt free landscape stand that let you read, write, watch videos etc. One small magnet is built-in the cover, and magnetically clasp it to the case edge. Easy to clip on and off. Microfiber inner lining for total protections to scratches.
